

Kiosks: Make Life Easier

Technology for Food & Beverage businesses is changing rapidly.

**Explore more features and benefits
of self-service kiosks for the foodservice
and prepared-food category, grocery
stores, and butcher shops.**

Touchless self-ordering. Customers can order and pay at the kiosk via an app on their phone.

Promote marketing and rewards programs. Easy sign-up and customer tracking.

Maximize labor hours. Free employees to focus on order prep and management.

Reduce wait time. A faster check-out means happier customers.

Improve accuracy. Reduce human error with digital ordering.

Increase sales. Process more orders and upsell with add-ons.

Customized ordering. Easy personalization with order tracking and history, reordering options, and rewards programs.

Intuitive Kiosk CMS & Digital Signage

**With drag-and-drop interface,
grocers can completely define and
update their store's & kiosk look & feel**

Our kiosk software is set up in days not months

Explore more features and benefits of self-service kiosks for the foodservice and prepared-food category, grocery stores, and butcher shops.

Kiosk Ordering Flow

1

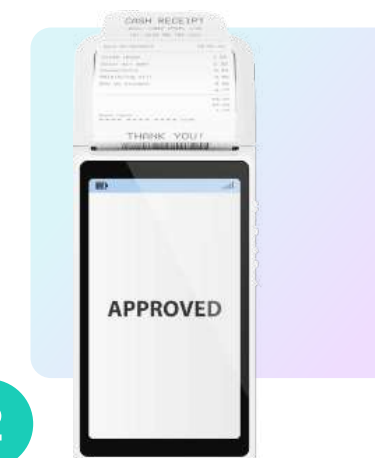

Place order, add any customizations, and collect customer data

3

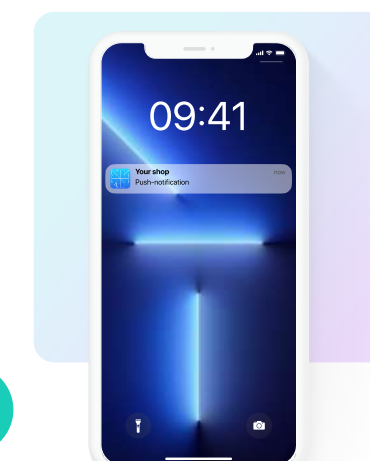

Kitchen receives order on a tablet and prints on a cloud printer

2

Pay at the kiosk or cash register

4

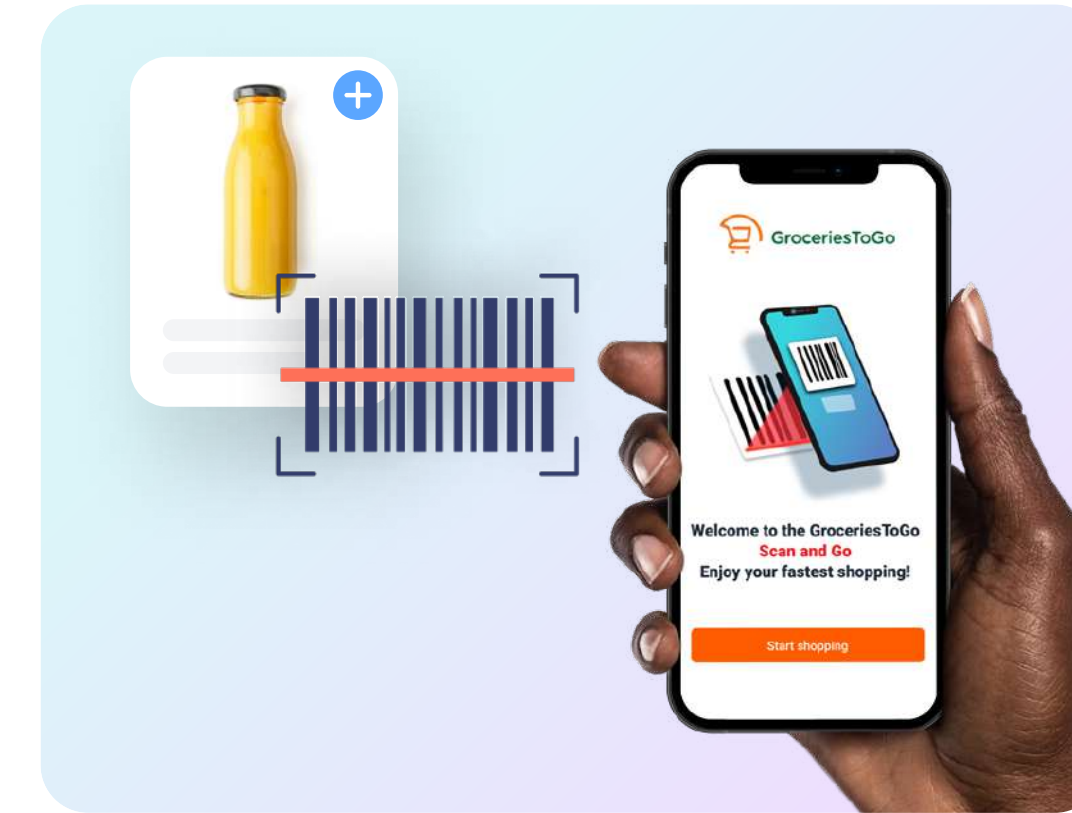

Customer receives order status notifications on the phone

**Cross-platform solution that
provides the right tools to instantly
sell and update products on any
device at any location**

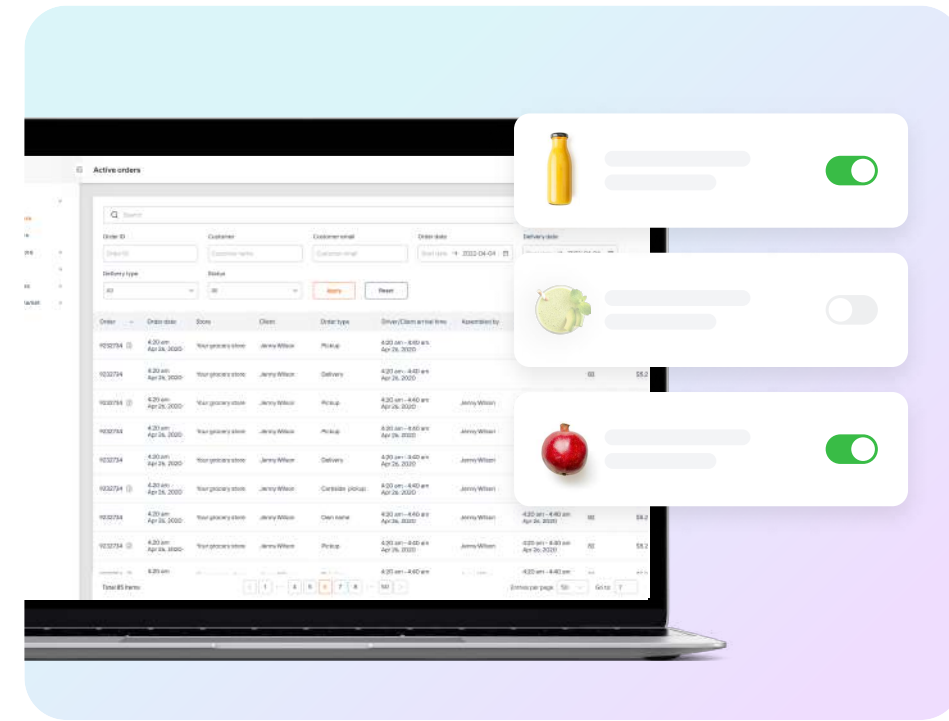

We integrate with the platforms you need

Our software integrates with digital menu technology, KDS, tableside ordering, order serving display technology and more. Cloud printer integration supports ticket printing by department or receive orders on a tablet.

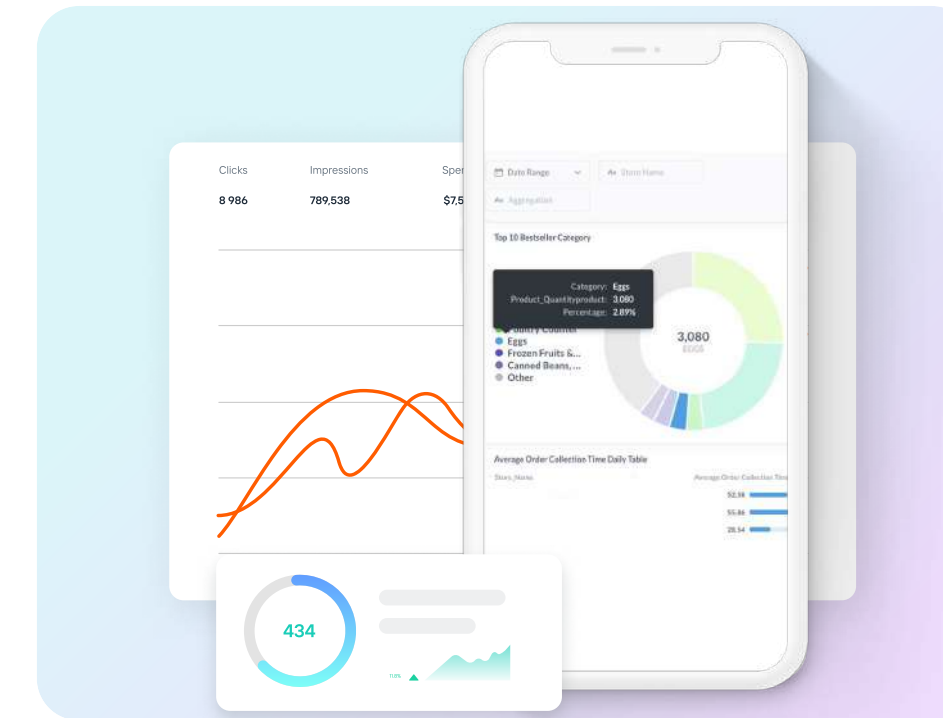

We've mastered touchless self-ordering

Our kiosk interface is accessible, secure and user-friendly. Customers can order, pay, and apply coupons at the kiosk by scanning a QR code on the screen with their smartphones.

Our software makes inventory management easy

Instantly update content from any device at any location. Effortlessly add sales or special offers, update ingredients or create special menu items. Our software simplifies product management to a just few clicks, with imported lists, easy manual updates or a pre-installed product library.

Build a customer database that helps you scale

Our software lets you collect customer data and review shopper profiles, so you stay up to date on trends. Personalized dashboards track relevant data for your business, and our data collection system helps you know when to scale.

Local Express kiosk solutions are your answer to a successful future

If you're a grocery store or QSR, our self-serve kiosk system helps you provide exceptional customer service with built-in scalability. The future is self-serve.

Self-service kiosk solutions to take your business to the next level

With over 75% of consumers preferring digital ordering options, kiosk ordering is a must-have. Self-order kiosks and mobile apps allow you to offer your customers the on-demand convenience they want.
